TO IMPROVE WARSAW HOSPITALS -- Rzeczpospolita, No 228, 20 Aug 49

The DRN [not identified] is planning to expand the hospital facilities in Mokotow, a suburb of Warsaw. Two hundred thousand zlotys were assigned to the Hospital for Contagious Diseases on Chocimska Avenue to be used for the most urgent repair work.

In accordance with the Six-Year Plan, the Hospital for Contagious Diseases will be moved to Wola, a suburb of Warsaw. The hospital on Chocimska Avenue will become a general hospital for Mokotow. The Hospital of the Sisters of St Elizabeth on Goszczynski Avenue will also be enlarged. A new gynecological division will be opened in the hospital.

NEW TUBERCULOSIS SANATORIUM -- Polska Ludowa, No 87, 26 Jul 49

In Dziwnow near Szczecin, the Social Security Institute rebuilt and activated a new tuberculosis sanatorium at a cost of 150 million zlotys. With accommodations for 350 patients the sanatorium is one of the best equipped institutions of its kind in Poland.

NEW SANATORIUM FOR PREVENTIVE TREATMENT -- Trybuna Ludu, No 235, 27 Aug 49

The Polish Antituberculosis Institute has opened a sanatorium at Zakopane for medical service personnel exposed to tuberculosis infection. Patients are treated from 3 to 5 weeks.

ANTITYPHOID SERUMS GIVEN -- Trybuna Ludu, No 217, 9 Aug 49

About 500,000 persons, or 76 percent of Warsaw's residents, have been vaccinated against typhoid.

As of 1 August 1949, the number of permanent residents registered in Warsaw was 614,341 including 346,140 women and 268,201 men.

MUCH DIARRHEA AMONG CHILDREN -- Trybuna Ludu, No 227, 17 Aug 49

After registering numerous cases of diarrhea the Municipal Health Department in Warsaw has opened five clinics for babies. The clinics will operate from 1 August to 30 September.

VACCINATION STARTS 15 AUGUST -- Zycie Warszawy, No 232, 24 Aug 49

The fall anti-smallpox vaccination period began 15 August. All babies born in 1948 and 1949 must be vaccinated. Children reaching the age of seven will be vaccinated for the second time.
